Join us on Saturday, the 13th of July 2024 in Kochi for an exclusive interactive session hosted by MERF-ISH. This event is designed for speech-language practitioners seeking to explore the effectiveness of technology for hybrid therapy practices and the evolution of SLP's career prospects.

### **About MERF-ISH**

The Madras ENT Research Foundation Institute of speech and Hearing is one of the leading institutions in the field of hearing restoration in this part of the world. The MERF-ISH is known for setting trends in treatment and management using cutting edge technology with 'state of the art' infrastructure in the field of speech and hearing. It is globally recognised for intervention and treatment using technologies like Auditory Brainstem Implant, being the largest ABI center in the world. The MERF-ISH is currently invested in researching digital technology and AI integrated therapeutic intervention programs.

### **Event Agenda Highlights**
